

SAHO Special-Purpose Series

Product Models & Specifications - Specialty Adhesives

| | Viscosity (cps @ 60°C) | Solid Content (%) | Tack Time (s) | Opening Time (s) | Appearance | Application |
|--|---------------------------|----------------------|------------------|---------------------|---------------------|---------------------------------|
| | >3000 | 70±1 | 30 | 200 | Light green colloid | Desktop laminator, semi-automat |
| | 1300±100 | 71±1 | 60 | 600 | Light green colloid | Desktop laminator, handmade |
| | 2000±100 | 55±1 | 1 | 10 | Amber colloid | Shake head's case-makin |
| | >6000 | 62±1 | 5 | 30 | White colloid | Hardcover book & magazine li |

Product Features

- High viscosity options for specialized applications
- Ultra-fast set time for rapid production (754)
- Long open time for complex assemblies (321)
- Specialized colors for different substrates
- Designed for specific machinery types

Typical Applications

- Hardcover book & magazine binding machines
- Shake head case-making machines
- Handmade assembly operations
- Specialty packaging applications
- Industrial binding and laminating
